

What our customers say

"Fantastic experience & great people. Called Erik to schedule a visit/quote, was super easy to set up. Trudy came out to check out the house and gave us a rough estimate on the spot, then went back and sent us a full estimate based on their calculation system. Gave us some time to decide and Erik took care of setting up a moving date. Not matter what estimate you get they charge by the hour and the moving guys were super, super efficient and quick; ended up being taking less time than the system's estimate.

On the day of the move, a truck and three guys took care of a three bedroom apartment. Mike, Donato, and Travis did a fantastic job; they were super friendly, efficient, and respectful. They showed up on time on the day of the move, and the move was very organized and clean.

The move was during a snow storm and they did a terrific job keeping everything clean and safe.

They took care of every single item they moved, and everything was delivered in perfect condition.

Highly recommend the company. If I ever move again I will definitely try to move with Central Maine Moving & Storage and with Mike, Donato, and Travis. Thank you very much for a stress free move" !
